Internet Acceptable Use Policy

General Approach

This document outlines the school's policy on permitted usage of the internet.

The aim of this Internet Acceptable Use Policy (AUP) is to ensure that pupils will benefit from the learning opportunities offered by the school's internet resources in a safe and effective manner.

Internet use and access is considered a school resource and privilege. If the school AUP is not adhered to this privilege may be withdrawn and appropriate sanctions will be imposed.

The policy applies to all internet users of CNS schools and all methods of internet access, including desktop computers, laptop computers, mobile telephones, tablets/iPads, personal digital assistants (PDA's) and other devices capable of accessing the internet

Misuse of the internet may result in disciplinary action, including written warnings, withdrawal of access privileges and, in extreme cases, suspension or expulsion. The school also reserves the right to report any illegal activities to the appropriate authorities.

This policy and its implementation will be reviewed annually by relevant stakeholders.

This policy has been developed by a working group including: Principal, Deputy Principal, teachers, pupils, parents/guardians, and representatives of the Board of Management.

The school will monitor the impact of the policy using:

- Logs of reported incidents.
- Internal monitoring data for network activity.

Should serious online safety incidents take place, the School Principal should be informed.

The implementation of this Internet Acceptable Use policy will be monitored by the STEM team, the Deputy Principal (Paul O'Callaghan) and the Principal (Claire Downes).
